28 October 2021

Dear Doctor/Sir/Madam,

NADI Virtual Seminar – Diabetes and The Heart January 15-16, 2022

Warm Greetings from the National Diabetes Institute (NADI) of Malaysia, a **not-for-profit, non-governmental organisation** dedicated to the prevention and better management of diabetes (and complications).

I am happy to inform that NADI is organising a **virtual seminar on “Diabetes and The Heart”** as indicated above to help healthcare professionals to better manage people with diabetes, to prevent and treat cardiovascular disease, especially of the heart.

Heart disease is common in people with long-standing diabetes and is also a major cause of death especially in those with poor control. Importantly, a number of diabetes drugs have recently been shown to improve heart disease outcomes.

Attached please find the **Brochure (including seminar programme)** on NADI “Diabetes and The Heart” virtual seminar and the **Registration Form**.

Please direct to circulate this Brochure and encourage your staff to participate in this virtual course.

Thank you for helping NADI to improve healthcare for people with diabetes.

Thank you again.

Sincerely,
NATIONAL DIABETES INSTITUTE

Emeritus Professor Dato' Mustaffa Embong
Executive Chairman (Honorary), NADI
Chairman, NADI “Diabetes and The Heart” virtual seminar
